To Whom It May Concern:

We had our roof done by Eagle Roofs and were very pleased with our service. All of our phone calls and questions were answered promptly. The work was done when they said it would be and we've had no problems or leaks. The completed job was priced as estimated and there were no hidden costs or changes in billing.

Even a couple of years after the sale, when we had hail in our area, they were good to return our call. By the way, we had no hail damage because the roof held up just fine when everyone else's had sustained damage.

I would not hesitate to recommend Eagle Roofs and Chuck Kimmel to any one, and we will gladly use them again the next time our roof needs redoing.

Sincerely,

Stephanie Knapp CPA
