

**MERCY MEMORIAL
HEALTH CENTER**

November 11, 2005

To Whom It May Concern:

Eagle Roofing has applied Chopped Fiberglass and Clay Based Emulsion to several roofs at our facility. We have had very satisfactory results with all problem area that other roofing systems could not fix.

Over the last year Eagle Roofing has responded quickly to all our request, they are very professional and will work with you on any problem.

We plan to continue using Eagle Roofing's Chopped Fiberglass and Clay Based Emulsion on other roofs at our Hospital.

Sincerely,

Charles Seymour
Facility Service Building Supervisor
